GET IN TOUCH WITH US

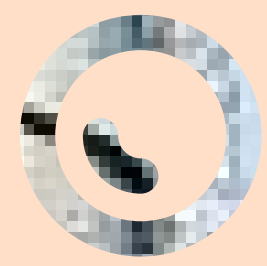

ABOUT US

Al-Kasbi Engineering specializes in the inspection and certification of lifting mechanisms, ensuring safe and compliant equipment operation. Our expert team provides comprehensive engineering services to maintain the highest standards of safety and efficiency.

Our Vision

To be the leading engineering partner in Oman, recognized for our commitment to safety, quality, and innovation in inspection and certification services. We strive to ensure the highest standards of operational excellence, fostering trust and long-term partnerships with our clients, while contributing to a safer and more efficient industrial environment.

Mission

Our mission is to create safer work environments by offering top-tier inspection, testing, and certification services for lifting equipment. We aim to support our clients in maintaining compliance with regulatory standards in Oman, ensuring that their equipment is always safe and efficient. With a focus on quality and trust, we work closely with our clients to meet their unique needs and requirements.

Values

Al-Kasbi Engineering Company is guided by core values such as integrity, quality, honesty, and respect. Our team operates with the utmost professionalism, ensuring that we deliver reliable and accurate services to our clients. Teamwork and dedication drive us to continuously improve and exceed expectations, while maintaining a strong focus on safety and innovation.

Philosophy

At **Al-Kasbi Engineering** Company, we believe in upholding the highest standards of safety and engineering integrity. Our approach is rooted in a commitment to providing value-added services to our clients while ensuring that all safety regulations and compliance standards are met. We strive for excellence and transparency in every project, prioritizing the well-being of our clients and their teams.

The background of the slide is a blurred photograph of an industrial facility. In the foreground, a large green industrial valve is visible on the left. In the center, two workers wearing yellow hard hats and blue work clothes are walking away from the camera. The background shows various industrial structures, pipes, and a clear blue sky.

PORTFOLIO

Since the company's inception, we have been involved in providing high quality contracting services with a competitive advantage. We have the capacity and capability to undertake any project, at any time and we are ready for new challenges, with highly motivated professional technicians and engineers. The project starts with consultation on estimating the value of the work and preparing bids and ends when the work is completed to the satisfaction of the client

OUR SERVICES

We provide Third Party Inspection (TPI), Non-destructive testing (NDT), Mechanical inspection certification and other technical assistance to ensure the quality, safety and reliability of our clients facilities. Our Inspection division caters to a wide range of industries ,including the oil, gas, energy, power, offshore and marine sector petrochemical and Construction

LIFTING EQUIPMENT AND MECHANICAL INDUSTRIAL INSPECTION SERVICES

Our highly qualified and experienced staff allows us to provide solutions to meet all needs From the most common to the most advanced We have the ability to respond quickly and Flexibly, wherever our customers are in the Sultanate of Oman. We are recognized and accredited by all major industry bodies in the Sultanate of Oman

(OPAL) and abroad (GAC)

Al Kasbi Engineering has services for the technical inspection of Equipment and Machinery as follow:

Technical inspection and approval of all lifting equipment and machinery used in .construction, factories, oil sites, etc

Providing guidance to customers about the readiness of equipment, its validity period and its degree of danger in order to preserve the safety of its users and those around them

Inspection services specifically in the following areas:

- Runway Beam Testing
- Lift Shaft Beam Testing
- SWL- alterations ,re-marking and Testing
- Lifting Accessories, shackles, chains, wire rope slings, clamps, Webbing Slings, Hooks, Container Pad eye, Tirfors and eye bolts
- Dedicated Inspection regimes, Database Reporting
- Personnel elevators
- Scaffolds & Ladders
- Carrier /Crawler Mounted Cranes
- Lorry cranes (Hiabs)

- 
- Earth Moving Equipment Wheel Loader, Back hoe Loader, excavator, Grader, Roller compactor, Dozer... etc.
 - Lattice Boom Cranes
 - Rough Terrain Cranes
 - Forklift Trucks
 - Aerial Work Platforms (MEWP- Boom)
 - All types of Overhead Cranes
 - Field Inspection of Rig Mast, Raising Lines, Stabbing Board, Crown Block, Drilling Hook, Traveling Block...etc.
 - Containers CCU'S offshore/onshore and lifting baskets

NON-DESTRUCTIVE
TESTING

TESTING

Non-destructive testing (NDT) comprises a vast array of analytical techniques that are applicable to a wide range of industries. These techniques can identify and assess defects and examine the properties of all kinds of materials and structures without causing any damage. As NDT in no way alters the part or structure under inspection, it is an extremely useful technique that can lead to cost and time savings when applied to product evaluations, asset management and fault identification and repair

Our NDT services comprises of

Conventional NDT Services

- Magnetic Particle Testing
- Dye Penetrant Testing
- Ultrasonic Thickness Testing

• Visual inspection Testing
